DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

All of the claims 1-23 include the limitation "a flange portion on opposed sides of said pilot portion" which means that there are two claimed flange portions. The claims then further include a single "planar panel support face" and a single "groove". This leaves the second claimed flange portion without a clear function.

Allowable Subject Matter

Claims 1-23 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references to Muller '159 and Muller '040 disclose related, recently issued, fasteners and methods of installing them and are cited to further show the state of the art.
